

CEILING, ROOF VOID & INTERIOR PRODUCTS

The Concept range of ceiling and interior products are designed to provide thermal, fire and acoustic insulation for suspended ceiling systems, roof voids and interior partition applications.

They consist of a variety of mineral wool rolls and slabs fully enclosed in polythene or faced on one or both sides with glass tissue and foil. Due to the diversity in dimensions and combinations of facing, whilst offering the more popular as part of our standard range we have a dedicated production facility specialising in bespoke products and short productions runs. Please contact our sales office with your specific requirement for further information.

POLYTHENE ENCLOSED GLASS FIBRE

Nominal 10kg density glass fibre core
Non-combustible to BS476: part 4:1970 (1984)
Thermal Conductivity 0.044 W/mK
250 guage polythene covering

POLYTHENE ENCLOSED ROCK FIBRE

Nominal 23kg or 45kg density core
Non-combustible to BS476: part 4: 1970 (1984)
Thermal Conductivity 0.040 W/mK (23kg) 0.037 W/mK (45kg)
250 guage polythene covering

FACED ROCK FIBRE PADS & SLABS

33, 45, 60, 80 and 100kg density rock fibre core
Non-combustible to BS476: part 4: 1970 (1984)
Thermal conductivity:
33kg density 0.037 W/mK 45kg to 100kg density 0.035 W/mK

Facings:

Plain or reinforced aluminium foil on one or both sides
Plain or reinforced aluminium foil enclosed
Black glass tissue on one or both sides
White glass tissue on one or both sides
Faced on one side, all edges and return with plain or reinforced
Class '0' aluminium foil, with black or white glass tissue on reverse

Dimensions

Thickness from 8mm to 100mm in 1mm increments.
Sizes available to fit nominal 300, 600, 1200 and 1500mm suspended ceiling systems. Custom made pads are available in sizes, shapes and finishes to suit any non-standard metal ceiling system regardless of configuration. Further details are available on request.

Please contact our sales department for further details of the wide variety of dimensions and densities available to order together with our short run and bespoke fabrication service.
